Igor

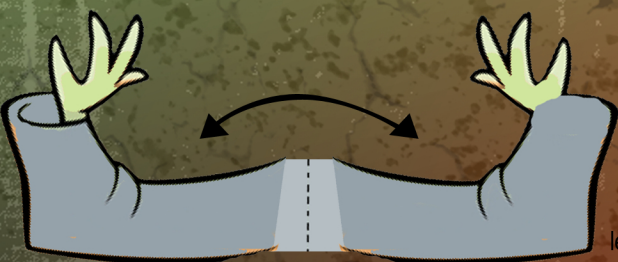

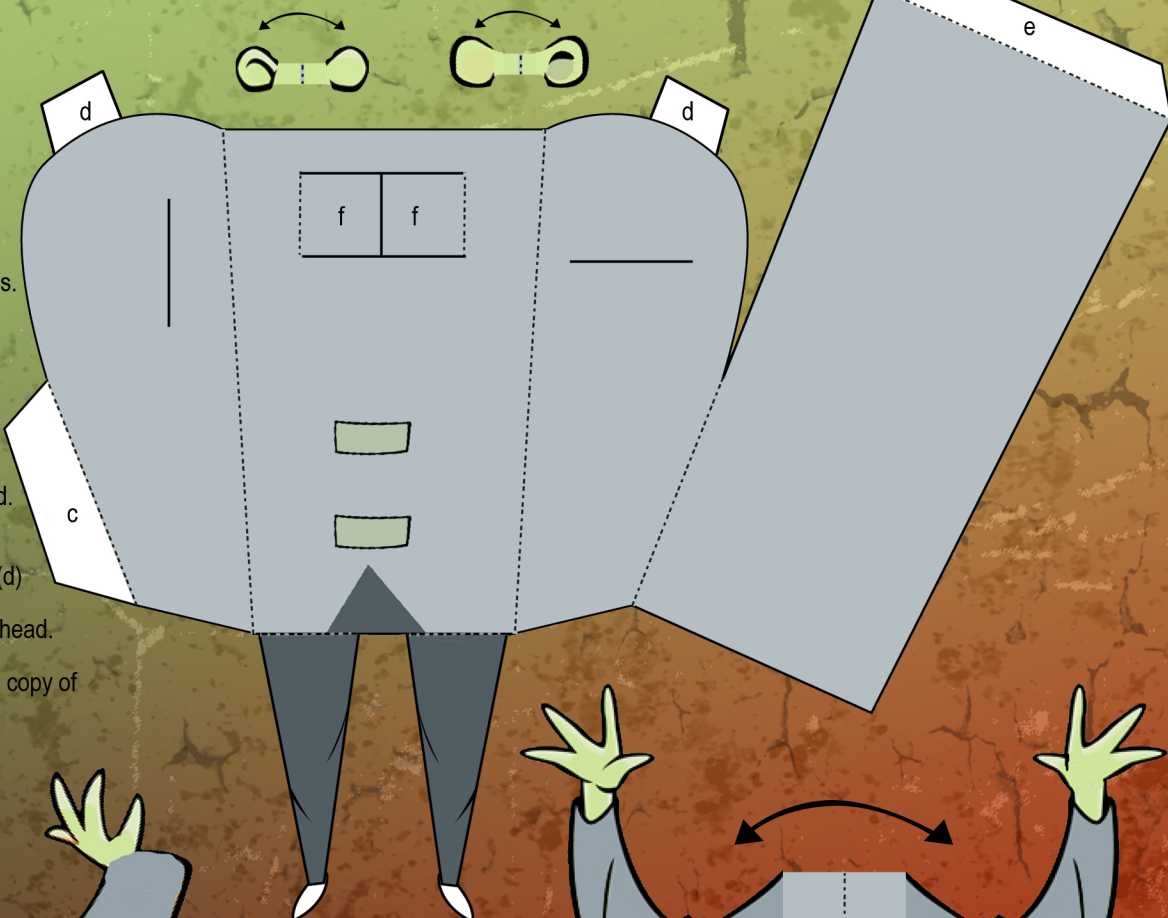

paper toy
by custom paper toys

cut _____
fold _____

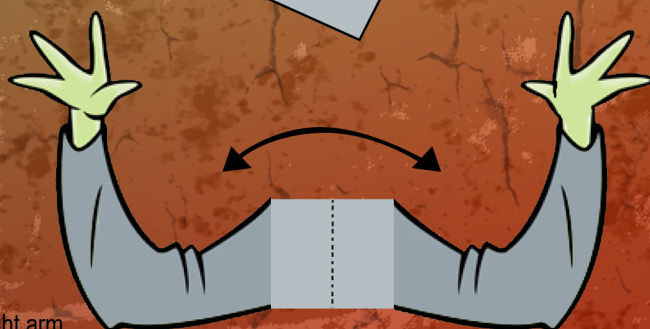

instructions

1. Score all fold lines by lightly running exacto blade over them or use a straightened out paper clip to score folds.
2. Cut out all parts with exacto.
Be sure to cut slots in back of head, ear slots, arm slots and neck tabs.
3. Glue tabs around to make chin and forehead. Then glue tab to other side of head. Glue top and bottom of head.
4. Glue front to back of octopus's head and fold legs out and glue to Igor's head.
5. Place ears into head.
6. Glue side of body to back (c).
Glue the hump up and around to sides (d) and then to the front panel (e).
7. Insert Arms. Insert tabs (f) into back of head.
8. Fold legs out forward.
8. Run to your local comic shop and buy a copy of Igor: Fixed by Frankensteins.
