The boat was one of the first forms of transport. A hundred years ago, the only way to make a journey was by boat. Nowadays, it is possible to travel from a country to another by train in an hour. It is also possible to fly from one continent to another in a few hours. However, many passengers still have fun while travelling by boat. Although the boat is a rather old-fashioned way of travelling, it has certain advantages. The boat is usually more comfortable than a plane or a car is. Instead of staying in your seat for the whole journey on a plane or in a car, you can go for a walk on the deck, eat in the restaurant or even do shopping.

A) Answer the following questions:

1- How many forms of transport are there in the passage?

2- What does the underlined pronoun "it" refers to?
