PINK DRAGON WHAT WE STAND FOR

Pink Dragon is a 100% daughter of Golden Dragon Fashion.

We know that our skirts are a bit too short.

We know that we use less fabric than the others.

We know that you look like a hooker when you wear one of our outfits.

We know that you can't wear our outfits for business.

We know that our outfits are not suited for a Domme.

But ...

We know that you do not care.

We know that you like well designed outfits which differ from the others.

We know that you love to show your firm ass and your breasts.

We know that you love to present yourself as a sex object, ready for any man.

We know that you stand occasionally in dark corners waiting for a customer.

We know that you like to present yourself as a slut, cum-bucket and sex-toy.

Right now we mainly offer clubbing outfits for females and TG-females. On the long run we want to offer fetish style, collars, and stuff you usually find in shady back rooms.

To ensure our low rates AND our quality design, our outfits consist usually out of three parts.

Top, skirt and shoes. Normally we do not offer underwear, stockings and such.

Pink Dragon guarantees best quality of any outfits and promises that the design is as good as possible.

We offer custom work. If you decide to offer a custom job you must be aware that you will be involved right from the beginning. The outfit will be only transferred when you are 100% happy with it. For us custom made means, that the result will be exactly what you want.

9 POINTS ABOUT PINK DRAGON

1) Pink Dragon outfits are always sets. We only offer outfits consisting out of skirts, shorts or pants. Always shoes will be included. It is up to you to combine them or leave parts away, but we want to offer you the chance to have a ready outfit when you put it on.

2) Stockings or a crotchless pantyhose, when included, will be always set on tattoo-layer. This enables you to wear them when having sex. In case a pantyhose is used, it will be part of the set, it is set on sex-wear. In case you have troubles with any tattoos, please contact me. I will customize then the outfit for you to enable you to wear the stockings and your tattoo.

3) Pink Dragon outfits are easy to recognize, since the soles of the shoes have a standard design. The heel and the sides of the soles are always bi-colored.

4) Pink Dragon outfits are specially made for sluts. We try to make them different like others, and try always to show a bit more ass and tits then usual. Imagine yourself wearing a leather harness, or a latex outfit in RL. Everyone looks at you. But here? The sight of this outfits is normal in here. No one will shoot a second glance at you, when you were this here. Keep in mind: If you want to attract guys you must be different from the others.

5) Pink Dragon does not offer parts as single parts. Our Prices are already cheap, and we do not want to rip customers of by selling single parts.

6) Pink Dragon does not re-use designs on other outfit. Every outfit is unique. But after some considering we have decided to offer the same outfit in different colors, to offer you a choice.

7) Keep in mind that Pink Dragon has no intention to rip you off. BUT at the same time we do not like YOU to rip us off. We do not offer rebates. Usually we do not throw outfits out for free.

8) The customer is king, or in most cases here, Queen. Feel free to contact me anytime you have special wishes, or when you like some custom work.

9) And last but not least. We like to hear your feedback. Positive feedback ensures us we are on the right way – and is good for our ego. We do not like negative feedback as much, but still it is important to improve the designs, which in the end must be design YOU like.

BLACK'N'WHITE

Black'n'White is a retro style dancing outfit. The Op-art pattern of the dress reminds of the late sixties and seventies. The unusual cut of the outfit shows much skin and ensures that a man's eyes are drawn to your best assets. Your full tits seem to jump out of the outfit, and the short skirt makes sure that your ass is visible, and even your wet pussy can be seen.

The shoes are picking up the pattern of the dress, but the red body contrasts to the outfit and draws the eyes on the woman wearing this outfit.

In short this is an outfit for any woman who is not offended when someone calls her slut, or cum-bucket, since she know she is all of that. A woman who loves sex, and who do not mind that she is used as a fuck-toy. By the way, I am a slut and a cum bucket. And I am proud when I called that. A man fucking around is admired and called stud, bull and such. And he is admired by anyone. But a woman doing the same is a slut or cum bucket. And like a stud and bull I am proud of the tag. Yes. I am a slut. Yes, I am a cum bucket. And yes, I am proud of it.

When I look at the outfit always a song by the late Amy Winehouse comes to my mind. A song about real hard working girls doing all to get better prospects for the future. A song about all promiscuous women, spending their nights to be there for men. A certain type of men.

The song is called "Fuck me pumps"

Fuck me . . .

. . . if you can

Yeah.

Admit it...

No matter you are white trash or from the Ghetto you do dream of this outfit.

Short cut of jeans shorts. So short that you do not only show your camel toe, but that sometimes your labia are visible. The short is so tight that you would not even be able to

wear a G-String beneath. Our trained workers have ripped the shorts at strategical places, making sure that your buttocks are bare.

The fitting cut of shirt, makes fits tight around your breasts and is short enough to show your breasts to anyone who cares to see them.

The outfits is completed by a pair of pink pumps to highlight and attract even more views

NOON

Guess who inspired me for this Golden outfit. Yes, you are right. The girl from Nutbush, TN who called herself a “Honky Tonk Woman”, or later “Private Dancer”. A woman always wearing skirts which are just a bit too short. A woman who was married to a guy who is just the guy any submissive is looking here for as Master. He may be a bastard, but you must admit he brought the best out of her, since the songs they performed together are simply the best songs of her. Yes, you are right. I am speaking of Tina Turner.

The golden outfit shows virtually everything. The semi transparent fabric and the cleavage put your breasts in the right light. The shortness of the skirt is enhanced by the crotchless pantyhose and the change of its material. The golden peep-toe shoes are fitting and finishing the appearance.

In short it is the perfect outfit. Either for dancing in the clubs.

Or for catching customers in Bareback Bordello. The outfit offers a mixture between sexiness, sluttiness and style. This and the flamboyant color are making the difference between a normal dress, and an eye-catching outfit.

Pink Camouflage

First we take Manhattan then we take Berlin. No Problem, when you wear this urban combat uniform in a stylish camouflage look. It consists out of a flimsy, loosely knitted dress in a pink camouflage pattern with an asymmetric cut. Either the matching underwear can be seen through the dress, in case you are niminy-piminy.

through the battlefields of the Bronx, South Central LA, the french Banlieue, or the more interesting parts of London. In case you are not caucasian, you could use them in some areas in Eastern Germany.... But...

...I am sure that you prefer to use them to stand in a dark corner, or at a busy street waiting for customers passing by. Be sure that the pink camouflage pattern attracts the attraction of any

Or your bare breasts and pussy, in case you are not so. Accompanied is the outfit by some pink and black ankle straps, on which you could wiggle easily

Leopard, tiger and Zebra. Clothes imprinted with this motives are a all time classic for any decent slut or hooker, so to say the little black dress for cum loving women. Wearing these kind of outfits would be the same like wearing a big badge saying "Red light" and you find them in the closets of many women.

Pink Dragon offers you a perfect zebra styled outfit. A zebra printed, too short dress reveals your buttocks. A big cleavage shows your breasts. Matching shoes complete the outfit.

BASIC SUB OUTFIT

Pink dragon does strongly support the ownership of subs. But when you walk through Torture Garden or other places you see many would-be subs. Fine outfits, nose hi and feeling more important and better then their owners. Sometimes subs forget what the are and what they are supposed to be.

We thought it appropriate to design a special outfit just for those subs. An outfit that shows the what they are. I Germany we say the clothes makes the person, and this outfit definitely has a therapeutic effect on those subs.

The top made out of robust burlap ensuring a minimum of comfort for those wearing it. The front is imprinted with owned, to show the social position of the wearer. Upon

request the owned will be changed to the name of the owner, reminding the sub, that it is the property of her Dom/me.

The skirt is made from sturdy leather, held by a rope. The skirt is short enough to give an extra humiliation to the wearer.

Completed is the outfit by a pair of wooden sandals.

Pink Dragon guarantees a maximum of humiliation and degradation and a minimum of comfort to the wearer. It can just be used for the fun of the Dom/me or as a measure of punishment. Masters and Mistresses will love it as much as the sub will hate it.

Please keep in mind that a complete customization is possible at low rates.

Welcome to the
Jungle

Welcome to the Jungle! The megalopolis of RLC offers dark streets and steamy clubs. More whores than the Amsterdam Red light district. The air reeks of testosterone and lust. You never know who lurks in the shadows... A mixture between Las Vegas, Blade runner and a monster brothel is waiting to get explored by you.

The urban Jungle line is perfect for it. Be either the predator when wearing the ROAR outfits, sporting a leopard print, or the "hunter" in a camouflage design. No matter which you are ready for the urban combat. The deep cut décolleté and the too short skirt attracts your prey, ensuring more adventure than you dream of.
